Weekly Meeting 100 is happening on Wednesday, March 22, 2023 from 9:00 AM PST(16:00 UTC) - 10:00 AM PST (17:00 UTC)

You can add it to your calendar [here](#).

We'll be meeting again in the omi-weekly-meeting channel of the [AngellXR/OMI Discord](#).

We regularly use the # omi-meeting-chat channel for text chat.

Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

If you're an observer or here for the first time, this is a meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We welcome you to introduce yourself in #omi-meeting-chat as we dive into the agenda items. There will be an open floor in the last 15 minutes of the meeting (agenda permitting) where we can discuss any items you feel are relevant to the current or near future OMI goals.

Agenda

Not everyone can present next week. We should prepare for a week-long celebration window.

On Wednesday 3/22/23

Streaming in Discord

- during our normal hours: World Hopping with interviews in front of booths on the [neon street](#)
 - OMI Booth
 - Morpheus Booth
 - Croquet Booth

- 30V Booth
- Live Podcast session in the M3 podcast room
 - podcast musical chairs

In person

Next Wednesday 4-6pm we are on at Metreon to meet up in person and I will be at GDC on the 22nd to connect live/remote or stream here - Evo

We will plan these other items around availability:

- Some other time during the week, need to reach out first: Panel with reps from different collab bodies for interop standards (OMI, OMA3, OMF, MSF, etc.)?
 - notify those we wish to invite
 - define questions and agenda
 - preferred in VR mode if possible

After OMI 100:

OMI 101 as a crash-course meetup for the stuff [we have been working on](#).

"co-location" - Evo actually gave a talk on this in 2009, about what it will be like to be in more than two places at once. Here I am in both the church of the worm, AND our OMI100 space as "the worm".
